

# LENOVO MIIX 510

GO ANYWHERE

Lenovo™

## Design That Stands Out

The Lenovo Miix 510 is a versatile 2-in-1 PC for you to take anywhere. You'll turn heads with its intricately tooled watchband hinges and FHD touchscreen. With its sleek one-piece aluminum design, plus performance to power through productivity tasks, the Miix can be used in virtually any situation. And now it's even easier to stay connected with optional LTE—never worry about the strength of your Wi-Fi connection.

## WHY YOU SHOULD BUY THE LENOVO MIIX 510

### Work Like Crazy

With the latest performance to power through productivity tasks, and fast storage that opens programs and files in a flash, you'll get that presentation finished and have time to spare before your next meeting. And with the premium optional backlight keyboard with 1.5mm key travel, you'll have the feeling of typing on a laptop. The keyboard also doubles as a folio case to protect the screen when you're on the go.

### Play Like A Pro

Miix 510 is also a lightweight Windows tablet with a 12.2" FHD touchscreen. You'll enjoy taking high-quality photos with the rear-facing 5MP camera, then editing them in a snap by reattaching the keyboard or making selections with the optional Lenovo Active Pen. Whether you're snapping pictures, watching movies, playing games, or simply browsing the web, you'll love the flexibility of switching between a handheld tablet and a full productivity laptop.

### Stay Connected

Thanks to the optional LTE support, Miix 510 is optimized for VoIP no matter where you are. Everything looks better with a 2MP webcam, plus a dual-array microphone with noise cancellation that reduces background noise and interference to keep your conversations with friends and family crystal clear. Need to power other devices? With always-on charging and up to 7.5 hours of battery life, the Miix 510 delivers the charging power you need—even when it's powered off.

# LENOVO MIIX 510 SPECIFICATIONS

## PERFORMANCE

### Processor
